

Excavator Track Link Assy

Excavator Track Link Assy made in China can be bought with low price from Shengan, which is a professional high quality Excavator Track Link Assy manufacturers and factory in China. We provide customized products service. If you want quotation, you can ask us by leaving a message. We will get back to you as soon as possible.

Product Description

Our factory specializes in manufacturing of Excavator Track Link Assy. Shengan, as one of the professional China Excavator Track Link Assy manufacturers and suppliers, we are strong strength and complete management. Also, we have own exporting license. We mainly deal in making a series of Excavator Track Link Assy and so on.

Fujiansheng Shengan Mechinery Development co., Ltd is a large scale bulldozer and excavator undercarriage parts manufacturer and supplier in China--Excavator track link assy. It has been established over 35 years. We have professional heat treatment facilities to provide high quality products, short delivery time and the best service for our customers. Our factory mainly produces track roller, carrier roller, sprocket, front idler, track chain, bucket, swamp track shoe and etc. Our products have been recognized and supported by customers in many countries. We often participate in exhibitions.

Choose us and we will bring you professional products and excellent service

Excavator track link assy and groups function to allow crawler-type heavy machinery to move efficiently. These track chains and groups are made up of flexible links that are connected together by fittings called pins and bushings. There are two types of track chains that exist for heavy machinery: dry chains and lubricated chains. It is made by forging, machining, heat treatment, assembly, painting etc.

The quality and working life depends on the quality of raw steels, the hardness of rail surface, the depth of hardness layer, the quality of seal group etc.

Product Parameter (Specification)

Model Name	Excavator track link assy
Part number	PC100
Material	40Mn2
Color	Black or Yellow
Surface Hardness	HRC48-55
Application	Crawler Excavator
Warranty time	1000 hour
Technique	Forging
Usage	Crawler track chain machine
Application	Excavator parts

Product Details

Excavator track link assy is made by forging, machining, heat treatment, assembly, painting etc., is one part of undercarriage parts for crawler heavy equipment such as excavator, bulldozer.
